Presentation title:

An Invitation to Courage-Envisioning the world as it could be both individually and organizationally

Brief description:

Most people and organizations see the world as it is and react. This impactful presentation redefines courage as an invitation to envision the world as it could be, then create it both individually and organizationally by amplifying (being more of who we are), investing (offering our best) and serving (claiming our influence). Addresses the fears we must overcome and the kinds of safety we must sacrifice to gain clarity of vision and create an ideal world in each of our spheres of influence.
